BOOK SYNOPSIS

This practical manual presents an evidence-based coaching model for helping students whose academic performance is suffering due to deficits in executive skills, including time and task management, planning, organization, impulse control, and emotional regulation. In just a few minutes a day, coaches can provide crucial support and instruction tailored to individual students needs. From leading experts, the book provides detailed guidelines for incorporating coaching into a response-to-intervention framework, identifying students who can benefit, conducting each session, and monitoring progress. Special topics include how to implement a classwide peer coaching program. More than three dozen reproducible assessment tools, forms, and handouts are featured; the large-size format and lay-flat binding facilitate photocopying. Purchasers also get access to a Web page where they can download and print the reproducible materials. This book is in The Guilford Practical Intervention in the Schools Series.

COACHING STUDENTS WITH EXECUTIVE SKILLS DEFICITS GUILFORD PRACTICAL INTERVENTION IN SCHOOLS
