BOOK SYNOPSIS

The delightful third book in the multimillion-copy internationally bestselling series Being up against the clock was a real problem for so many people, thought Hector. What could he possibly do to help them? First he tackled happiness. Then he took on love. And now Hector, our endearing young French psychiatrist, confronts the persistent march of time. His patients lament that there is not enough time in the day. Or they feel that life is passing them by. And in one case, a young boy turns the problem on its head: Hes impatient to grow up! Hector himself is increasingly aware of time: He doesnt feel quite so young anymore, and the clock is ticking on his relationship with his beloved Clara. So as time flies, so does our wise and winsome hero in his latest adventure, traveling around the world to understand the past, the future, and how best to enjoy the present. From the Trade Paperback edition.
